

## Software Strategy Ltd.

*Software Strategy exists to help companies improve their software development activities and better serve their core business with better products.*

---

### Training Courses

All training courses are available for private delivery on client site and include:

- Foundations of Agile Software Development using Scrum
- Foundations of Agile Software Development for Business Analysts
- Applying Lean thinking to Software Development: Including an introduction to the Kanban Method
- Requirements and User Stories for Agile Development
- Test Driven Development (C++, Java, C#)

Several courses are offered as open enrolment in association with partners in the UK and elsewhere in Europe. An up to date list of scheduled courses is available at: <http://www.softwarestrategy.co.uk/training/public.html> where you will also find a full list of courses and more details.

In addition custom courses can be created to meet specific requests.

---

### Services
